

State of Michigan Ottawa Office Building

Lansing, MI

\$3.2 Million
2003-2004

This fast-track project involved the complete demolition and renovation of four floors of office space to facilitate the developing requirements of new leadership in the state government. The project required a great deal of flexibility in accommodating the evolving needs of the owner during this time of transition. HBC worked hand-in-hand with Mayotte Jacob Architects in adapting to the needs of our client with speed and agility.

You're Expanding. We're Contracting.
